AWS CloudFormation Template (CFT) Release Notes

Revision Date: November 29, 2016

Review important information about open issues and workarounds, and issues that are addressed in the current version of the CFT.

What's New

The AWS CloudFormation Template (CFT) allows you to deploy an auto scaling tier of VM-Series firewalls in a AWS load balancer sandwich topology The CFT version 1.1 has the following changes:

- PAN-OS version for the VM-Series firewalls is PAN-OS 7.1.6.
- The firewalls supports the longer EC2 instance resource IDs in AWS.

Known Issues

The following list describes known issues in the AWS CFT version 1.1:

- For the PAN-OS 7.1.6, refer to the
  - Known issues:
